Re: Approval of Small Mine Notice, Milford Quarry / Riprap Operation, S/001/049, Beaver County, Utah

Dear Mr. Pfingsten:

On January 25th and 31st, 2000 respectively, we received your Notice of Intention to Commence Small Mining Operations and initial permit fee for the Milford Quarry/Riprap Operation. The proposed small mining project is located on fee land in Sections 22 and 23, T27S, R11W, Beaver County, Utah. The information in the small mine notice for this project is considered complete and this notice is approved.

A variance was requested not to perform any reclamation work based on the fact that this operation involved only picking up surface rock from historic mine dumps. The variances would apply to items 10, 12, 13, and 14 of the "Operations and Reclamation Practices" section of the small mining rules. This variance is approved.

If you anticipate expanding this operation beyond the five (5) acre limitation, please notify our office as soon as possible to discuss the necessary permitting requirements. Approval of a large mining notice could take from six to twelve months or longer.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Do not hesitate to call me at (801) 538-5321 if you have any questions regarding this letter.

Sincerely,

Tom Munson
Senior Reclamation Specialist
